Building Is Active

Blairmore Possesses Finest Hotel In
The Crows' Nest Pass—
New Stores

That Blairmore is on the advance steadily and sure is apparent to everyone, both resident and transient. Several months ago the limitation of hotel accommodation demanded a speedy addition to the hotels in order to cope with the ever-increasing trade. In consequence, a large addition was built to the Blairmore hotel, which made that hostelry one of the most roomy in The Crows' Nest Pass. Following this initial step, the owners of the Alberta hotel were compelled to make an immediate alteration and extension, and plans were gotten out for the moving back of a portion of the old building and the building of a more presentable and accommodating office, bar and rooms on the front at the corner of Victoria Street and Fifth Avenue. This addition is well worthy of mention and is being admired by everyone throughout this section. The new portion has a whole concrete basement, upon which stands a very attractive two-story block, adding some twenty bedrooms as well as nicely finished offices and bathroom. The new rooms are being well furnished and heated, and the accommodation throughout the whole building will compare favorably with that of any other hotel in The Pass.

"It's an ill wind that blows nobody good" is an old saying and fits in very well at present in connection with the Cosmopolitan hotel, for the town of Blairmore now feels proud of the fact that as a result of a big fire in March last she is now the possessor of one of the finest brick and concrete blocks in Southern Alberta.

A good many months since work was commenced on the excavation for the new Cosmopolitan hotel, to replace the thirty-roomed house destroyed by fire on March 25th last, and ever since the work has been pushing ahead, until today we are witnessing the finishing touches to a fifty-roomed hotel which surpasses anything in the hotel line in Southern Alberta. The new Cosmopolitan is a magnificent structure exteriorly, being three storeys of solid brick upon a full concrete basement. The ceiling of the basement is nine feet high, that of the main floor fourteen feet, while both the upper flats have twelve foot ceilings.

In the basement is located a large Gurney furnace, which will supply the entire building with hot air, as well as the rooms and baths with hot water. Every part of the building will be equipped with hot and cold water, the fittings all being of the very latest type, while each of the upper flats will have a large bathroom, conveniently located.

Besides the furnace room in the basement there will be many other apartments, including a laundry, where all the laundry work for the hotel and its guests will be handled.

On the first floor is a spacious

office, having large plate glass windows which make it very attractive. A large dining room is located north of the office, off which are the kitchen, sample-rooms and servants' rooms. West of the office is the bar, which is to be fitted in a luxurious manner.

On the second floor is a full complement of twenty nicely-furnished bedrooms and suites, the parlor affording a magnificent view of Victoria street and the surrounding country.

The third floor contains twenty bedrooms and is furnished in a similar manner to the second floor.

A five-foot wainscoting of green and brown burlap is placed throughout the entire building, which besides standing for durability, is very clean-looking and attractive.

The furniture throughout is without a doubt the best yet installed in a Crow's Nest Pass hotel, everything from curtains to carpet in the bedrooms being the best obtainable.

The stairways are also very attractive and go up in a winding manner from the office at the first floor to the top.

The house throughout will be heated by hot air radiators and the most agreeable temperature will be ensured.

The new hotel is nearing completion, and will be opened in the next two weeks.

The masonry work on the hotel was done under the superintendence of Alex Alberts, the concrete king of the Pass, while Frayer & Sinclair put in the woodwork and the finishing touches. The furnishing, heating and plumbing was installed by the Goodeve Hardware Co., of Coleman.

Next adjoining the hotel a two-story brick block is being erected by Messrs. Roscoe & Beebe. This block is 100x25 feet, and has a full concrete basement. This new building is being planned as a wholesale liquor store.

East of the Roscoe-Beebe block is R.M. Brisco's new gent's furnishing store, which will be opened up inside of the next three weeks. This store is 88x25 feet, and has a very attractive front of red and gray concrete bricks. The upper flat will be used for the present as living quarters to be occupied by Mr. Brisco himself, and will be so arranged that it could be easily converted into a show room if occasion required.

These, together with the Royal Bank, T. Ede's offices and the big Budd block, make one of the finest business blocks in Southern Alberta, and a sure credit to the town of Blairmore as well as an assurance not only to the people of the town but to outsiders that Blairmore is facing a big future.

FOR SALE—Typewriters for sale. Almost new. In perfect condition. Will sell cheap for cash only. Apply to "Blairmore Enterprise."

The Lilliputian Opera Company appeared at the local opera house last night and will appear again tonight. This company comprises some thirty clever lasses, and their presentation of "The Girl in The Shrine" and "Billie Taylor" have won them considerable merit all along their tour.

City Fathers Meet

Curfew By Law Passes Its Third
Reading—Other Important Business

The regular meeting of the city fathers took place at the council chamber on Monday night, there being present Mayor Lyon, Councillors Dutil, Sinclair, Sparks and McLeod, Secretary-Treasurer Shern, and the usual quota of spectators hugging the back walls.

The minutes of previous meeting were read and approved.

A communication from Mrs. L. W. Kribbs was read, stating that a clothes line and bognire near her residence was causing considerable annoyance, and requesting that the council take steps to have same removed. The council would look into the matter at once.

The Leitch Collieries Co., of Passburg, wrote asking if the town could sell them 650 feet of wood pipe for water main. Secretary was instructed to notify the company that the town had no pipe to spare.

Dr. A. H. Baker wrote acknowledging receipt of the town's advice to act temporarily as health officer, and consenting to act as such.

A communication was read from the mayor and secretary of the town of Leduc, announcing the fact of a convention of municipalities to be held in the near future at Innisfail and requesting that our town be represented. Any town could send a delegation of from one to seven.

A letter from the commissioner of irrigation respecting the diversion of water from York Creek was read, and another letter from the Department of the Interior asking how far the water works had advanced, and as to what time same would be handed over to the town.

Chief Irwin reported that one light had been off in nineteen days.

W. J. Budd wrote to ask what time the town would be in position to take over the water works.

The mayor of the town of Coleman wrote to ask at what rate the town had decided to assess coal lands, and suggesting that the coal towns of Southern Alberta get together and arrange a fixed uniform rate.

An encouraging report from the secretary of the school board was read.

The following accounts were next read and ordered paid: W. A. Beebe, \$40; C.P.R., \$135; J. Whiller, \$160; Winnipeg Rubber Co., \$19.02; H. M. Customs, for duty on hydrants, etc., \$149.05; Fire Chief Burrows, salary for half year, \$50; W. L. Shera, \$80; J. R. Irwin, \$100; Dawson & Green, \$37.95.

a proper manner, to be governed by a lease or rental payable to the town. The scales would occupy about ten feet and would prove a great convenience for weighing teams, loads of coal, produce, etc.

Dutil-McLeod—That town's solicitor be asked to draw up agreement between the town and Mr. Sargent respecting the said scales, and to fix a rental of \$1 per month. The work of re-erection of scales to be under the supervision of the municipal engineer, agreement requiring that notice of abolition of contract be made within sixty days. Carried.

On motion the Curfew By-Law and the Vagrancy By-Law passed their third reading.

The matter of employing a medical health officer for the town was next taken up. Some months ago the council asked Dr. Baker to act as health officer, offering \$150 per annum as a commission, which was refused. Dr. Baker asked for \$250. The presence of several cases of typhoid in a certain part of the town made it necessary to appoint a medical health officer at once. The cases in question are supposed to have had their origin from a small polluted stream running down the hill near the Boyd residence.

The meeting adjourned at 10.20 p.m.

Daddy's Bedtime Story

The Great Pie
Picnic Not
A Success

Mother packed the pie in a basket.

Of course you all like picnic. Jack and Evelyn did. They could hardly wait for the day the Sunday school was to have one.

"Picnics are all very nice, I dare say," said daddy. "I used to think so when I was a boy."

"One time some of us boys thought we would have one of our own. Each of us was to bring a basket of food for the dinner which we expected to eat under the trees."

"A very good idea," said daddy.

"I was very fond of pie, so I asked mother to bake me some pies as my share. There were to be ten of us at the picnic, and mother thought five pies would be about right. That would allow half a pie for each boy. They were good big pies."

"We played ball until 12 o'clock, when we reached the grove where the picnic was held. A couple of older boys who had come to look after us laid the cloth as we finished the game."

"Then they began to open the baskets and set out the food on the table. We were hungry, and as soon as the first basket had been emptied and its contents set on the cloth we began to gather around it too."

"There were pies in that first basket—apple pies. Then the second basket was opened. In it were more pies—rhubarb pies this time. The third basket held current pies. Then we opened a basket of lemon pies. After that came baskets of custard, raspberry, coconut, blackberry, gooseberry and buckeye pies. If there was any kind of pie that we did not have at that dinner I cannot think what it was."

"You see, daddy boy had asked his mother to make his favorite pie for the picnic, and the ladies had done so. There wasn't a thing for daddy but pie."

"No? Well, when you are hungry you want something to go with your pie. We began all right, but after a couple of pieces of pie we were tired of it."

"You'll have to eat it up, boys," the other fellows said. But, though we all did our best, there was pie and pie when we got through."

"Some little folks who had been berrying came along, and we traded our pie for bread and butter which their mothers had given them. They got hungry. The bread tasted fine—better than bread ever tasted to us before."

"A couple of our boys who had eaten a good deal of the pie complained of not feeling well later. So we made that our excuse for going home early."

"Every mother's son of us as soon as we reached home demanded bread and butter, and when the story got out folks laughed at us and called us pie boys."

HAVE FAITH IN KITCHENER

All Classes of Egyptians Ask Advice of Noted General

Vienma—General Sir Rudolph Slat in Pasha, the Inspector general of the Sudan, who is spending the first part of his annual leave here, states that Lord Kitchener is keeping people on the move.

The main part of the population, he says, is coming to realize that it is much more important for them to improve their financial and economic situation than to continue to waste their time in political agitation of a very doubtful value.

Lord Kitchener's popularity might be gathered from the crowded state of the agency, where people of all classes care constantly to beg his advice and assistance in all matters, very often trivial private affairs of their own.

They came because they knew Lord Kitchener made a point of receiving everybody. He talked to them in Arabic, and showed a genuine desire to help them.

Mortuary

Pop, when folks have deadlocks—Yes, son.

Why don't they use skeleton keys?—Baltimore American.

The first year of married life is devoted to experiments by both husband and wife, the experiments being prompted by a desire to learn who is boss.

She Had the Last Word

"They were quarrelling—as usual. Of course, dear, he said, sarcastically. I don't expect you to understand."

No, darling, she cooed, you would be awfully lonesome if I were."

Lady—And what do you call your team?

Bobby—We call 'em de Wamps, but for all that, de umpire's always a stranger to us."

A man may be spending to be making progress as soon as he discovers that the soup box at the corner grocery is a righty poor seat.

It is Criminal to Neglect the Skin and Hair

THINK of the suffering entailed by neglected skin troubles—mental because of disfigurement, physical because of pain. Think of the pleasure of a clear skin, soft, white hands, and good hair. These blessings, so essential to happiness and even success in life, are often only a matter of a little thoughtful care in the selection of effective remedial agents. Cuticura Soap and Cuticura Ointment do so much for poor complexions, red, rough hands, and dry, thin and falling hair, and cost so little, that it is almost criminal not to use them.

Although Cuticura Soap and Ointment are sold by druggists and dealers everywhere, a letter to "Cuticura Dept. 33, Boston, U.S.A.," will secure a liberal sample of each, with 32-page booklet on Skin and Scalp Treatment.

W. M. U. 509

YOUNG ROYAL LOVERS

Prince Boris, heir to the throne of Bulgaria, and Princess Elizabeth, daughter of the crown prince of Roumania, whose engagement is to be announced shortly.

Hit Last Three Dollar Bill

This illustrates the tremendous, astounding, and gorgeous value of making a big show as a last resort. It dictates that brass, bravery and bunk, draped, connected with an opera hat and pearl shirt studs, can make the conquis of Alexander the Great look like a five-cent moving picture show when the lights are had.

The hero is Fred T. Dubois, who has been many things at many times. Once he was a merchant, and once he was a Republican United States senator, and once again he was a Democratic renegade.

At quite another time, I, however, he was dead.

Chicago. Carefully searching himself at five o'clock in the afternoon he discovered that he had three dollars in his pocket and a feeling of great dreariness in his heart. He did not know whether he would retreat to the almshouse or retreat to the lake when that three dollars had given out.

The sun was setting in clouds of red, and the breeze that swept down Michigan Avenue was cold. Fred shivered and concluded, in a flash of unusual sagacity that this was a sad and weary world.

Well, he told himself, I'll put up the best front possible until I can lay my cold and clammy hand upon my throat. I'll go to the opera this evening.

Whereupon, he arrayed himself like a bridegroom, strolled down to the stage, and he was particularly that he should be an aisle seat. Then he walked down the aisle with the demeanor of a hero and the haughtiness of an indicted millionaire.

The upshot of it was that his seat happened to be next to a man who was unaccompanied at the theatre. At the first intermission the stranger lay back and said to him: "I'm impressed with your dress."

"That's a superb appearance," said the other, "but I'm a little disappointed in your conversation, closed a business deal with him, but he had no more to say."

All of which indicates that, while you have a dress suit, you stand a chance to hypnotize ready money.

Minard's Liniment Cures Colds, Etc.

Big Feet

The police inspector's face turned scarlet with rage as he read a raw Irish result for his awkwardness. Now, O'Connor, you'll stop the line with those feet. Draw, instantly, man, and get them in line. O'Connor's dignity was hurt.

"Here, inspector, he drawled scornfully, they're the Murphy's in the rear rank."

After you have once watched a man mow your lawn you know why he is mowing lawns for a living.

A Tale of Letters
Which letters are the hardest to write? The Bees (B's).

Which are the most extensive letters? The Seas (S's).

Which letters are the most fond of comfort? The Ease (E's).

Which letters have the most to say for themselves? The I's.

Which are the noisiest letters? The Jays (J's).

Which are the longest letters? The Elts (L's).

Which are the poorest letters? The Oves (O's).

Which letters are the greatest bores? The Tease (T's).

Which are the most sensible letters? The Wise (W's).—Tit-Bits.

A man went to an insurance office the other day to have his life insured. "Do you cycle?" the insurance agent asked.

"No, said the man.

"Do you motor?"

"No, said the applicant laughing. I have no dangerous.

But the agent interrupted him crying: "Borry sir, he said, but we no longer insure pedestrians."

A Born Candidate

Willis—I suppose you think that baby of yours will become president some day?

Gillie—Maybe not president, but he will be in the race after the nomination. I think he keeps the whole place in an uproar, uses indecorable language, and can go without sleep a week.—Brooklyn Life.

Very many persons die annually from cholera and kindred summer complaints who might have been saved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. If attacked do not delay in getting a bottle of Dr. J. C. Kellogg's Dysentery and Cholera Remedy. It is a medicine that never fails to effect a cure. Those who have used it say it acts promptly and thoroughly subdues the pain and disease.

TO STRENGTHEN WEAK NERVES

The Blood Supply Must Be Made Rich, Red and Pure

When you build up the blood you strengthen the nerves, because the nerves get their food through the blood. You cannot reach the nerves with medicine except through the blood—this is a great medical truth few people realize. Nervous people are pale people. They are nervous because they are pale. The blood is so thin and watery that it cannot nourish the nerves. Starved nerves mean scintilla, neuralgia, nervous prostration, paralysis.

People are a real nerve tonic. They supply plenty of nourishing red blood to the exhausted nerves, thus enabling them to do the work nature intended they should do.

This is the simple secret of the success of Dr. Williams' Pink Pills in curing nerve troubles. As to the value in cases of scintilla, Mrs. Job Palmer, Fenelon Falls, Ont., says: "For seven weeks I suffered untold agony from scintilla. I tried everything to ease the pain, but it steadily grew worse. Liniments had no more effect upon the trouble than water. Then the doctor told me to apply a hot iron to the afflicted part."

I had given hope up at that point, but my brother I decided to try Dr. Williams' Pink Pills. To my surprise, the pain was able to stand on my feet with but little pain, and soon after I was able to walk about again. I continued taking the Pills for about two months, but some time before I discontinued their use my leg had become normal again, and the agony of the trouble had disappeared, and I have not since had a twinge of it."

Worlds fall to express my gratitude for what the Pills did for me and I strongly recommend them to all suffering from scintilla.

The every day mission of Dr. Williams' Pink Pills is to cure cases like this. They are the best medicine in the world for the point it gives a fair trial. Sold by all medicine dealers or by mail at 50 cents a bottle. Write for literature from The Dr. Williams' Medicine Co., Brockville, Ont.

CANADA'S PULPWOOD, 1911

Discussed in a Recent Bulletin of the Forestry Branch

Ever since the Province of Quebec forbade the export of pulpwood cut from Crown lands, considerable interest has been taken in the question of the value of the pulpwood trade.

A leading paper trade periodical estimated that the price of pulpwood in the Dominion is one dollar per cord. This is corroborated by the bulletin on pulpwood lately compiled by the Forestry Branch of the Department of the Interior. According to this bulletin, the average price of pulpwood in Quebec province during 1911 was higher by ninety-seven cents than during 1910.

In Ontario the price actually fell twenty cents per cord, while in Nova Scotia and New Brunswick increases of twenty and thirty-two cents respectively are announced.

A question that is just beginning to come into notice in the Dominion is the question of saw-mill waste as a fertilizer.

A very small quantity of saw-mill waste is utilized by three firms which own both saw-mills and pulp-mills.

Let's Have It

This high cost of living is a serious question, hawled the campaigner, and a question, a very serious question, indeed.

We know it's a question, yelled a coarse man in the audience. What's the answer?—Kansas City Journal.

The soil of Cuba is extremely fruitful. Cabbages there are so large that heads weighing 20 lbs. each are common. All vegetables are so large that they can be eaten from fourteen to eighteen days after sowing, lettuce and cauliflower, and so on.

It produces three crops per year. Sweet potatoes grow all the year.

Then and Now

The young wife has given her husband a dance. You're improved wonderfully, Jack, she said, as they sat down. "Don't you remember how you used to fear my dress?"

Yes, he replied, I wasn't buying them then.—Boston Transcript.

"I Want You to Have My New Portable Granary"

"I have a money-saving invention—handy granaries to allow field threshing over your farm. Move them about each year. You save long hauls at harvest time. In spring you scatter small straw stacks—no burning of straw."

"These granaries come in compact bundles. A boy can get up and bolt one together in a few hours. Four pedicels protect the grain. Separator delivery into a spout on the side into roof manhole—saves work during threshing. Your grain is protected from vermin, wet and thieves. I sell it when you are ready, leading direct from the granary into your wagon, or bagging it. No rusty or heated grain. Get my granary and be independent of elevators for selling. Sell at the highest price, no matter how low you store your grain. The Pedlar Granary protects your grain."

"Write me for my booklet. It shows how profitable my Granary is even on a single quarter-section farm. The Pedlar Granary is fireproof. It is made of galvanized iron. It is made of galvanized iron. It is made of galvanized iron."

The Pedlar People Limited
Winnipeg, Calgry, Edmonton, Oshawa, Ont.
Winnipeg, Calgry, Edmonton, Oshawa, Ont.

Direct your inquiry to the Pedlar place nearest you. They will answer you promptly and save you time. The Pedlar Granary is fireproof. Think what that means!

When Your Eyes Need Care

"Write—Acta Quickly. Try it. For Red, Watery, Itchy, Stinging, and Inflamed Eyes. It is the best eye remedy in the world. It is the best eye remedy in the world. It is the best eye remedy in the world."

Lead production in the United States has increased by one billion pounds, an increase of forty million pounds over 1910. Imports last year were 80 million pounds, a decrease of thirty-seven million pounds.

The prominent on the university had dark circles under his eyes. His cheek was pallid, his lips were trembling, he wore a hunted expression.

You look ill, said his wife. "What is wrong, dear?"

Nothing much, he replied. But—I—Ba. A fearful dream last night, and I feel this morning as if I—

It was evident that his nervous system was shattered.

What was the dream? asked the wife.

I—I dreamed the trustees required that I should—that I should pass the freshman examination for admission to the president.—Youth's Companion.

NATURE'S ESSENCE... Extracted From Forest Plants.

Nature's laws are perfect, but disease follows if these laws are not obeyed. Go straight to nature for the cure, to the forest, to the fields, to the mountains, to the lakes, to the rivers, to the sea. Take the bark of the wild-cherry tree, the root of mandarin, stone, Oregon grape root, quinine root, bloodroot and golden seal, make a scientific, non-alcoholic extract of them with just the right proportions and you have

Doctor Pierce's Golden Medical Discovery.

It took Dr. Pierce, with the assistance of two learned chemists, eight years of hard work experimenting to make this pure glyceric extract and alternative of the greatest efficiency and without the use of a particle of alcohol.

Just the sort of remedy you need to make rich, red blood, and cure that leading and leading of nerve exhaustion. Dr. Pierce's Golden Medical Discovery bears the stamp of Public Approval and has sold more largely in the past forty years than any other blood purifier and stomach tonic.

"Goodness, how I feel now," said a woman named to be the best of the trouble," writes Mrs. E. C. Williams of Belleville, Kansas. "I was suffering from a very bad case of indigestion and nervousness. I was unable to eat and I was very weak. I had been told of Dr. Pierce's Golden Medical Discovery and I had heard that it was the best remedy for such cases. I bought a bottle and I took it. I feel now as if I should pass the freshman examination for admission to the president."

The Discovery is a "good" tonic on my feet and seemed to be just what I needed. I could not have recovered without it."

Dr. Pierce's Pleasant Pellets are for Weak Livers.

Alberta and

Saskatchewan Lead

The following interesting statis-

tics regarding homestead entries

made during the month of June,

1912, in the four western provinces

appears in the recent issue of the

Labor Gazette.

Of 3938 entries made in the

four provinces, only 28 went to

British Columbia and 239 to

Manitoba, while Saskatchewan re-

ceived 2242 and Alberta 1479.

Of the above all countries were

represented excepting Newfoundland,

South Africa, China, Persia

and New Zealand, while 1087 of

the total number of entries made

(3988) were from United States.

Before the Curfew By-Law

passed Blairmore was chock full

of "fourteen-year-olds," now

there's not one to be found.

Gee, don't the time fly!

Now that the Curfew By-Law

has passed, we may have the

pleasure of seeing the streets of

Blairmore clear of youngsters

after 9 p.m. The law provides

that children under the age of

fourteen years shall not be

found on the streets or in pub-

lic places after 9 p.m., unless in

the custody of parents or guar-

dian, or production of satisfac-

tory excuse. Listen for the

bell!

Famous Play By

Well Known Troupe

For one night, Tuesday, Sep-

tember 17, the Blairmore opera

house will ring with the kind of

laughter that makes fat people—

the occasion being the presenta-

tion of the standard comedy-dra-

matic success "Zeke, the Coun-

try Boy," by the Bell Company,

strengthened for the tour of this

play.

"Curly" Butler will do "Zeke"

with his songs and witticisms; C.

G. Butler, known all over the

West as one of the finest of violin-

ists, will appear as the "Trick

Fiddler," and the rest of these

well known players are in excel-

lent roles. The play is seven

years old, and has been played in

almost every city on the continent.

Believe a full scenic outlay. The

play is far from being all comedy,

for the dramatic situations are

very pronounced. Undoubtedly

one of the largest turnouts ever

witnessed here will see the play—

especially as prices are to run up

to seventy-five cents only.

Accident At Coleman

Gustaf, the three-year-old son

of Mr. and Mrs. A. Delien, was

seriously, if not fatally, injured at

Coleman on Thursday afternoon.

The little fellow had wandered

last to C.P.R. right-of-way,

while playing, and was struck by

the switch engine at work in the

local yards. The child was picked

up and conveyed to the Miners'

hospital, where it was found that

he had received a compound frac-

ture of the skull. The bones of the

skull were splintered, and one

splinter, fully an inch in length,

was driven into the brain. Every

effort is being made to save the

young life, but result is doubtful.

Macleod Has Champion

Tom Three Persons, of Macleod,

won the world's championship in

the cowboys' bucking-horse contest

at the Calgary Stampede, receiv-

ing \$1,000 cash, a gold-mounted

championship belt, and a saddle.

Happenings in and

Around Blairmore

BORN—To Mr. and Mrs. C. H.

McLeod, Sunday night, Sept. 8, a

son.

Mr. McDougall, manager of the

Ferne Lumber Co., was in town

Monday.

Misses Shepherd and Latta will

hold their fall millinery opening

on Friday, September 20th.

P. Stroy, of Okotoks, is in town

this week, and purposes opening

up a shoe repairing establishment.

Mrs. F. S. Kalfory arrived from

Ferne on Sunday night, accom-

panied by her husband and daugh-

ter.

The attendance at the local

churches was smaller than usual

on Sunday last, owing to last

week's distribution of Eaton's cat-

alog.

FOR SALE OR RENT—Ten-

roomed house, suitable for board-

ing or rooming house. For par-

ticulars apply to L. H. Putnam,

Blairmore, Alta.

The new concrete sidewalk

around the Alberta hotel is cer-

tainly a great improvement and

enhances the approach to the

hotel very much.

Sunday night's express became

disabled at Coleman. A relief

engine was summoned from Frank

and the train was nearly two

hours late in consequence.

S. H. Turner received injuries

in the local mine last week by a

quantity of loose material falling

on him. He has since been con-

fined to his bed.

Miss Magill, who has been re-

lieving Miss Sunstrom as man-

ager of the local telephone, exchange

for the past couple of months,

leaves for Edmonton next week.

Representative Ugen, of the

C. P. R. Cranbrook division, has

been transferred to Calgary, and

is succeeded at Cranbrook by

A. C. Haislaw, formerly train-

master at Calgary.

PICKED UP—On Victoria Street,

Blairmore, on Wednesday after-

noon, a lady's black hand-bag.

Owner can have same by apply-

ing to C. V. O'Hara at the Blair-

more hotel and proving property.

Central Baptist church will hold

a reception in the Baptist church,

in honor of the teachers of the

public schools, on Friday Sept.

18th. Members of the church and

congregation are invited to be

present.

Three more cars of machinery

have just arrived and are being

unloaded for the Blairmore Brew-

ery. The machinery will be in-

stalled with all haste, in the hope

of having the plant in operation

by October 15th.

The Rehoboth of Coleman in-

tend giving a social in the Odd-

fellows hall at Coleman on the

night of September 17th. Quite

a number of invitations have been

sent out and an enjoyable time is

expected.

"Zeke, the Country Boy," will

appear at the Blairmore Opera

house on Tuesday night next, in

"The Murder in the Gaitlight,"

"The Den Scene," and "The Rude

Fiddler." Popular prices 25, 50

and 75 cents. Don't miss it.

Central Baptist church will hold

their Anniversary Concert in

Blairmore opera house on Wed-

nesday evening, Sept. 18th. Bills

and programs will be out in a few

days. Every effort is being made

to make this a first class concert

in every particular.

Houses are at a premium in

Blairmore at the present time,

and quite a number of applicants

have failed to secure living quar-

ters. Here is the best opportunity

in Alberta for anyone to invest

their surplus and be assured of

big interest on their investment.

H. G. Bigelow had a letter re-

sponding to him from the postal

department this week, which had

An Idyll of the Mosquito

Did you ever pick raspberries?

I tried to once but my effort ended

in deep meditation and the result

was my decision, that I had a mission

to fulfil. I owed the months before me

to humanity. With this noble re-

solve before my mind I decided to

devote my time to one of the most

serious menaces to human happiness

that exists in the world today. The

mosquito. I was not long in dis-

covering that they have brains (some

have a share of mine now.) They

think, have a language, religious

forms and ceremonies, even a Masonic

order. But one thing they sadly

need is a temperance organizer. Their

religion is to draw blood and they

have a Dance of Anticipation, and a

Dance of Triumph which they per-

form before and after, like the abori-

gines used.

The way of my discovery was thus.

I came to a bush loaded with

luscious ripe fruit. I stooped to bite

—and got bitten. Again and yet

again I tried. I got two bites to

every berry. I bit the berry and the

mosquitoes bit me. At last I sat down

upon a stump and watched these in-

teresting little creatures which now

came about me in droves. Their

beautiful gaudy wings glittering as

they flitted about me, no duty and

as I watched I became conscious that

there was method about all this.

One swaying g

Notes From Burmis

A. P. Hughes, Manager of the Union Bank at Pasburg, was a visitor to town on Monday.

Tom Dufrenoy, Mine Host, of the Pasburg hotel, was looking up old acquaintances last Saturday.

A. Corrie, of the Western Canada Wholesale, of Fernie, B.C., was a business visitor to town last week end.

Harry Fisher received a slight injury to his leg with a piece of cap rock, while at work in the mine last Saturday.

The horse race between the respective horses of G. Carson and R. Glover was run off last week end and resulted in a win in favor of Carson's horse.

Slim Berry, mayor of Police Flats, paid a casual visit to town on Sunday, and after being shown around town by the boys, high jinks were participated in until the wee small hours.

The president announced that he had not asked the Duke of the Burmis Stampede, but would do so when arrangements had been completed. Roping stunts is child's play to what roping Gussaks is. Isn't it, Hillcrest?

A football game was played off last week end between the diggers and the boys on the haulage, which resulted in a win for the diggers by a score of 5 to 2. The haulage boys not being satisfied with the result have issued a challenge for a replay.

We send our best wishes for the success of all deserving candidates sitting under the cruel eye of John and Francis. We hope they are all able to explain why P.A.-K.S.V.2, if not they are invited to write our worthy president for explanation before sitting again.

As announced by the Order some time ago, the Noble and Mainbow are to be put in commission again. With Burmis coal again in their bunkers they will be able to broast the mighty ocean, brave the sea serpents and get over to the old sod of Winston. Who knows, the Kaiser may have another relapse.

Bearing in mind the doughty deeds, aforementioned, a "sneak" voice asks the chairman, if Hillcrest have yet sent on particulars of the line up of their \$800 team, and the reply was in the negative, it being supposed that the pick of the Pass players would be secured for that date.

Owing to the Stampede the Gussaks meeting was postponed last week, and this week we are listening to the stories of the many or less fortunate Gussaks.

That tedious tale of the Stampede happenings, and include as items of supreme interest the following sights: Cowboys roping, riding, bulldozing and rolling pills single-handed, also the great schemes of the management in getting up spare dollars, and the wonderful effort and successful efforts of old Pluto. We sit and listen to the harralising yarns,

Hillcrest Happenings

Query—Has anyone heard a Gussak squeak lately?

Mr. and Mrs. Joe Breyer and family paid a visit to their numerous friends in Bellevue on Wednesday last.

Mrs. Frank Smith returned to Hillcrest on Tuesday last from Calgary, where she has been spending a few days with acquaintances during the Stampede week.

Mr. Morrow, the assayer for the Canadian Pacific Railway taking the place of A. Wicks at Hillcrest, arrived in town on Friday last and was much impressed with the possibilities of the Pittsburg of Canada.

A fast football game is promised for this afternoon preceding the smoker when the combined teams of the Southern Alberta League will play against Bellevue, the acknowledged best team in the Pass. This is timed to commence at 4.30 sharp. Altogether the Hillcrest football fraternity is intending to take a day of it and all are heartily invited, "particularly Gussaks" as the poster says.

The medals for the players have been ordered from Messrs. Eyrice Brothers of Montreal, and cost in the neighborhood of \$10.00 apiece. The cup will be presented by Mr. W. Graham, the manager of the P. Burns Company. Local talent will be called upon to furnish the entertainment part of the programme, and as there are several first-class vocalists and musicians in and around Hillcrest there is no doubt as to the success of the concert.

The Independent Order of Orful Gussaks is in a bad state. Their chronicle was sent to jump into the allegorical creek last week and from all accounts has not been seen since. It is probable that like the proverbial bad hal'penny he will turn up again and we shall not be sorry for them as few enough real authors in this world as it is. We thought of sending a wreath but changed our mind and invested the money in a bottle of Orzo instead.

Alfred Wicks and James Leigh left Hillcrest on Saturday evening for Vancouver, whence they are taking the boat for Australia. Mr. Wicks has been in Hillcrest only a short time, but during the few months he was here he became so popular and, in the football circle, so indispensable, that his departure was regretted by all. Mr. Leigh was also very popular among all, filling for several months the position of assistant manager for the Hillcrest Co-operative Society, and Hillcrest people wish the two of them all success and prosperity in the future.

And those who won't are glad for what they have seen; while those who stayed away are glad they were not in the money-trying crowd and at the mercy of the elements. So it goes, everybody is satisfied, and the Stampede ranks as an unqualified success.

slater colony.

At a meeting of the Hillcrest school district on Saturday evening last, Mr. John Brown, the general manager of the Hillcrest Collieries here, was unanimously elected as trustee in the place of the late secretary-treasurer and trustee, Mr. W.G. Wain.

For the fifth time this season, the management of the Frank Sanitorium are going to make an attempt at holding their much postponed tennis tournament. This tournament has been extensively advertised on four occasions previously, but on each and every date set, the weather turned out so stormy that tennis was an impossibility. This time they have decided to try the 14th inst., next Saturday, and a large attendance is expected.

At a meeting of the executive of the Hillcrest football club on Monday evening last it was finally decided to hold the grand smoking concert in connection with the presentation of the Burn's cup and medals to the winners of the Southern Alberta (Pass) Football League on Wednesday evening, the 18th inst. Artistic posters, designed by Mr. W. O. Tower, have been sent to all the surrounding towns, and have had the effect of making everyone take notice. The artist is to be congratulated on his fine execution and the thanks of the Hillcrest football club will be due him more than anyone else if the affair turns out to be the success it is expected to be.

S.S. Lessons Americanized

Toronto, Sept. 10.—Canadian Presbyterians and Methodists are said to be preparing to throw out the international Sunday school lesson. It is declared to be too Americanized with its illustrations invariably drawn from United States history. This is given as one of the reasons for the federation of the Presbyterians and Methodist Sunday School Boards.

In dealing with the International Lesson, the board will not wait for the federation to receive its formal ratification but the two executives will adopt plans for a national Canadian Sunday School Lesson to be prepared jointly.

The work of repairing the roads between Frank and the B.C. boundary is nearing completion, and attention will next be directed to the roads from Frank to Landbrook, on which the government proposes to expend a considerable sum. The work will be under the superintendence of A. W. Robbins, of Blairmore.

Adam Lorimer, and his family, after some months stay at Bellevue and Hillcrest, have taken up their residence in Fernie.

A RARE OPPORTUNITY FOR LIVE INVESTORS Lake City

In the name of the Western Terminal Point of the proposed Crow's Nest Pass Electric Railway and is already tapped by the Pass line of the C. P. R., while the G. N. R. has already approached to within a few score of miles and must eventually pass through this admirably located town.

Lake City

Is located by the shore of Crow's Nest Lake, only a few miles east of the provincial boundary between Alberta and British Columbia, and just north of the international line. In reality, it is at the top of Canada where the majestic Rockies tower in serene magnificence over great chasms and numerous fiords, reflecting their presence on the waters of this beautiful lake. Here also are afforded the very best tasks for the daring mountain climber and for huntsman who desires to outlive the quiet ways of the Rocky Mountain goat, sheep, deer or elk, which are the monarchy thereon. In close proximity are numerous timber, mineral and fuel resources, development of which is now in its initial stages. These resources include gold, quartz, coal, iron and pulp wood. Crow's Nest Lake has long been looked upon with promise as an admirable location for health and tourist resorts, and but now this promise is being realized; Plans for hotels, etc. are being arranged, as well as boat houses, and the most modern pleasure yachts will soon glide over the surface of this beautiful lake.

But a few weeks ago lots were placed on the market, and the agents have had their hands full attending to purchases. Prices run from \$150 up. For further particulars apply to the agents:

The destruction of the house by a public duty is almost every American State Board of Health is carrying on a crusade against him. His filthy origin and habits, and the fact that his body is generally laden with disease-producing germs, makes him one of the greatest enemies of the human race.

If the housekeepers of Canada will use

WILSON'S FLY PADS

persistently, this pest will be tremendously reduced.

Language and Religion

The man who tells this story claims that it was an Irishman. At any rate the language makes a fine bull.

A preacher had delivered his prize sermon, exhorting his hearers to improve the religious life and scorn the pleasures of youth and late supper. He concluded with this centre shot. My brethren, let not this world rob you of a peace which it can neither give nor take away.

A Feminine Misunderstanding

Upon Sinclair, who is an advocate of divorce when married people are unhappy, tells this story.

A woman in one of the large cities of this country was one day persuaded to go to a spiritualistic seance in order to hold converse with her dead husband.

My dear George, said the widow, in tears, are you happy where you are? Happier than I was on earth with you, George answered with alacrity.

This was something of a poser, and the widow paused to decide what she should ask next.

What is it like in heaven, dear George? she finally asked.

Heaven! exclaimed George. I'm not in heaven.

An Oil of Merit—Dr. Thomas' Electric Oil

Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first trial of it will carry conviction to any who doubt its power to repair and heal.

The Champion Magazine Reader

Philander C. Knox, the secretary of state, is an omnivorous reader. He subscribes to more than fifty magazines. In addition to this, he buys all the new books and the rare editions of old works that he can get his hands on. At his bedside he has an adjustable electric light and a convenience of his own patent which, like a tray, holds a large volume while he reads it.

Why not?

A lady who gave herself great airs of importance on being introduced to a gentleman, said, with a show of much indifference, I think I have seen you somewhere.

Very likely, replied the gentleman with equal sangfroid. I have been there frequently.—Philadelphia Ledger.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing in such letters as the following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had ulcers and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicine highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not rest to see any one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all who suffer. You may publish this testimonial."—Mrs. STEPHEN J. M. JETER, Chesterville, Ontario, Canada.

W. N. U. 909

QUESTION OF OWNERSHIP

Inspection on Barrel Proves It Genuine Relic of Notorious Highwayman

London—Dick Turpin—a simultaneously butcher's apprentice, cattle lifter, smuggler, housebreaker, highwayman and horse thief—the hero of our childhood, has been proved undoubtedly owner of the pistol just discovered by workmen in the ceiling of the Reindeer Inn at Banbury.

The pistol is undoubtedly of the date 1735, said the manager of Messrs. Westley, Richards & Co., limited, gunmakers of New Bond Street, where the pistol is now on view.

You see that it is a double-barreled horse pistol with flint locks, smooth-bore barrel, 16 gauge and of the exact pattern used during the seveneenth and eighteenth centuries.

We have had the assurance of an expert engraver that the inscription on the barrel—Presented to Dick Turpin at the White Bear Inn, Drury Lane, 1735—is also of that period. The workmanship throughout is very fine. The handle is of English walnut. The flash holes are inlaid with gold, and the band around the breech end of each barrel is gold. It probably cost about \$100 originally.

The pistol is marked in four places in small gold inlaid panels. "Baker, London" who was the predecessor of the well known Ezekiel Baker, pistol maker to the prince of Wales.

The mystery of how it came to be found in the Reindeer Inn may be explained by the fact that history tells us of an occasion when Turpin stayed in the inn and was shot through the hand.

Of course the question of ownership has arisen. Since the pistol was discovered on the upper side of the plaster ceiling above the historical Globe Room at the back of the Reindeer Inn, it was claimed by the inn, but by Messrs. Leary Gun who have purchased the ceiling, by the lease of the property as occupier and also by the freeholder of the property.

A Gol. Mine in the Kitchen Stove

Said, of Cincinnati, who piled up a fortune by the use of his name on catnip bottles, got all his money because he realized, like Mrs. Shiloh, was a great and gorgeous cook.

She made him some catnip shortly after they were married, and he remarked.

We ought to get a fortune out of this. Let's see it.

They did sell it, and built it up into a big business, thereby annexing the fortune.

A lumber dealer contracted to supply a lot of lumber to a stranger. On looking it over he found it full of knot holes and told his customer about it. Frankly he said.

You may not want this lumber, he said.

Why not?

I have to be honest with you. It is full of knot holes.

The stranger then laughed.

"I'll take it," he declared. "This lumber is to go around some baseball grounds. Knot holes won't hurt matters any. I was a kid myself once."

The Great American Game

Judging from what's going on, remarked the man with the gray hair and the hard heart, American politics is a nice combination of the best skill of the knife thrower, the ventriloquist, and the mud lark.

Minard's Liniment Cures Diphtheria.

When Nagel Had to Ride

Charles Nagel, secretary of the department of commerce and labor, is a tall man, resembling in his build an isolated pine tree on the top of a hill. Returning to Washington one night from New York, he got past the taxicabs and was surrounded by a group of hucksters, one of whom paid attention to his attention as he intended to walk the fourteen block block to his office.

The huckster greeted him with a storm of such cries as:

Take you right upwind!—Take you to the New Willard!—Take you to the flathead!

The statesman walked straight ahead, not even looking at his besiegers.

If you want a cheap hotel, jump right in here, yelled another driver. Still Nagel walked on unheeding.

Finally a Jehu addressed him thus: Dear old dumb ass! Take you up there in a minute.

At this Mr. Nagel laughed, and got into the hack.

A Safe Bill for Suffering Women—The scheme of a bill of women which permits of little harmful exercise is a "fruitful" cause of derangements of the stomach and liver and is accountable for the pains and lassitude that so many of them experience.

Farmer's Vegetable Pills will correct irregularities of the digestive organs and restore health and vigor. The most delicate woman can use them with safety, because their action, while effective, is mild and soothing.

Gals—Has Jones a good memory? Steve—Should say he has. Why, he can name you the last six vice-presidents of the United States.—Cincinnati Enquirer.

Safe Anyhow

Professor—The average American girl is poorly educated.

Girl Graduate—You think so?

Professor—Yes, but there is one consolation, the average American boy will never find it out.—Satire.

DICK TURPIN'S PISTOL

Rockefeller and His Rocks

Just because John D. Rockefeller has made more money than he can count without the aid of shrewd clerks and forty adding machines, not to mention a well-trained corps of coupon clippers, there are many people who come forward these days with stories to show that John, now famous for his wealth, wife and wit, was once about the cutest person that ever happened when it came to financial strategy.

According to this latest narrative, Rockefeller told a close friend—and that close goes both ways—one morning that he wanted to borrow five thousand dollars—and that he must have it in order to save his business. The friend went downtown in the course of his work, and pretty soon met a big banker.

I wish, said the banker, if you see Mr. Rockefeller this afternoon, you would tell him that I have found a place to put that ten thousand dollars which he asked me to loan for.

The friend clasped like a goldfish, and proceeded on his way, encountering another of the town's leading bankers.

By the by, said the banker, when you see Rockefeller this afternoon, please tell him that I have found a man who wants to borrow that ten thousand dollars.

The friend staggered on, and met a third banker, who repeated what the other two captains of finance had said. Then he went back and found Rockefeller.

John, he said in astonishment, when I told you this morning you told me you had to borrow five thousand dollars, and all day bankers have been telling me that you asked them to lend out ten thousand for you.

Well, well, smiled Rockefeller, that's fine! I suppose I may safely assume now that my credit is established in this town. I'll just step out and borrow that five thousand I need.

On Lady O'Looney

Here lies the body of Lady O'Looney, a great niece of Benjamin Franklin, called the sublime. She was bland, passionate and deeply religious, also she painted in water colors and had several pictures to the exhibitions.

She was first cousin to Lady Jones; and of such is the Kingdom of Heaven.

FEARFUL HEADACHES

STOMACH BAD, NO APPETITE, LOSING WEIGHT AND STRENGTH

Wonderful Change, When Health Was Restored by

DR. CHASE'S NERVE FOOD

Headache is a symptom and not a disease in itself. It acts as a danger signal to warn you of serious trouble.

By reading Mr. Bonner's letter you will be satisfied that there is no treatment to be compared to Dr. Chase's Nerve Food as a means of building up the system and removing the cause of headaches, sleeplessness and indigestion.

Mr. Charles Donnell, Kleinburg, Ont., writes: "I wish to communicate to you the great cure which I received from Dr. Chase's Nerve Food. For over two years I suffered from fearful headaches, my appetite was very poor, and the stomach bad. I took medicines from physicians, but the headaches persisted, and I was rarely free from them."

"Reading about Dr. Chase's Nerve Food, I began using it, with the idea that I would be benefited. I had become thin and weak, but the very first box helped me, and with continued treatment I have been cured and feel like a new man. The headaches have disappeared, my appetite is good and digestion excellent. I write this letter in hope that other sufferers from headache may use Dr. Chase's Nerve Food and be cured."

Dr. Chase's Nerve Food, 50c a box, 6 for \$2.50, at all druggists or Edmanson, Bates & Co., Limited.

I thought you had a trained nurse to wait on your wife?

No, I have. And now you're looking for more, is it?

Yes, I find I have to have three or four maids to wait on the trained nurse.—Detroit Free Press.

Soothing

She—What was it the choir just sang?

He—From the appearance of the congregation I think it must have been some kind of a prodigy.

I bought a horse with a supposedly incurable ringbone for \$30. Cured him with \$100 worth of MINARD'S LINIMENT and sold him for \$45.00. Profit on Liniment, \$15.00.

Hotel Keeper, St. Philippe, Que.

Mrs. Bacon—My husband threw his alarm clock at a cat in the back yard last night.

Mrs. Robert—But he never hit the cat. I'll bet.

Mrs. Bacon—No, but he says he got rid of one nuisance, anyway.—Puncher & Stieglitz.

NO BURNED BREAD

NO SCORCHED BISCUITS

No need to apologize to family or guest when **MOONEY** does it. **MOONEY'S BISCUITS** are always right—every biscuit inspected before it is packed—and they are as fresh as the product of your own oven.

MOONEY'S PERFECTION SODA BISCUITS

are the great favorites for every day use.

They are made in the big sanitary factory in Winnipeg and come to you in air-tight packages or in sealed tins as you prefer.

"LET MOONEY DO IT"

Will you be one of the 108 farmers who will receive our Prize Contest checks?

There will be twelve cash prizes in each of the nine provinces (108 in all) in the 1912 Prize Contest for Canadian Farmers. The 1911 Contest was so successful in awakening interest in the use of Concrete on the farm, that a second contest, in which three times as many prizes are offered, was decided upon for this year.

The Contest this year is divided into three classes, "A," "B," and "C," and there will be four prizes in each class. (First prize, \$50; Second prize, \$25; Third prize, \$15; Fourth prize, \$10.) Thus there are three \$50 prizes, three \$25 prizes, three \$15 prizes, and three \$10 prizes, for each province.

DESCRIPTION OF CLASSES

In Each Class there will be First, Second, Third and Fourth Prizes (\$50, \$25, \$15, and \$10) for Each Province.

CLASS "A"—Prizes to be awarded to the four farmers in each province who use most "Canada Cement on their farms in the year 1912.

CLASS "B"—Prizes to be awarded to the four farmers in each province who send photographs of the best concrete work done with "Canada Cement on their farms in 1912.

CLASS "C"—Prizes to be awarded to the four farmers in each province who send in the best description, written how any piece of concrete work was done with "Canada Cement." (Entries for this prize must be accompanied by photographs of the work.)

Don't think that you must use a large quantity of cement in order to win a prize. The quantity of cement used does not count in Classes "B" and "C." Many of last year's prize winners used very little cement.

When you enter the Contest, you have a chance to win a cash prize of \$50 as well as the certainty that you will add a permanent improvement to your farm. If you haven't a copy, be sure and ask for our book, "What the Farmer Can Do With Concrete." It will not only suggest many improvements that you can enter the Contest, but will tell you all about the use of concrete on the farm.

For writing your name and address on the enclosed card, see the point card, and we will send full particulars of the Prize Contest and a copy of our book "What the Farmer Can Do With Concrete" to you absolutely free.

Your wife isn't looking well. She is unable to sleep nights. She doesn't look like a nervous woman.

It isn't that. I had a secret pocket put in my clothes, and she hasn't found it yet.—Houston Post.

Kate—That Bragdon girl asserts that she has made a thousand refusals of marriage.

Al—That's true. When Gus asked her to be his wife, she replied "No, a thousand times, no!"—Boston Transcript.

Washington to St. Louis: Have you made any sacrifice to demonstrate your patriotism?

I have, replied the St. Louis man. I bet on the home team regularly.—Washington Star.

Scribbler—It took me nearly ten years to learn that I could not write poetry.

Friend—Gave it up then, did you?

Scribbler—Oh, no. By that time I had a reputation.—Puck.

The Statesman and the Wise Reporter

Charles Nagel, secretary of commerce and labor, has under his department the revenue cutter service and the light-house service, which make up a tremendous fleet. The last time the president reviewed the United States navy in New York Harbor, Mr. Nagel was on one of the boats as a night-seer. Tall and silent, he was watching the naval fighters without making any comment. Finally he was approached by a New York newspaper reporter, who was clad in the latest fashions and a consciousness of great wisdom.

"The reporter's jaw dropped, and he rejoined his companions with the plying remark: 'That old fellow is plumb nuts.'

"His curiosity got the better of him, however, and he went up to Nagel again with the question: 'What is your name?'

"My name is Nagel, replied the member of the Cabinet.

"What are you from?"

"My home is in St. Louis."

"Is that so?" commented the reporter vaguely. And you have a bigger home than this?"

"Oh, yes, reaffirmed Nagel carelessly.

"What was too much for the reporter. He went back to his companions, made a gesture signifying wheels in the head, and said, with an air of great conviction:

"Yellows, he's a raving maniac."

A gag—Many men who grew up confidently expecting to live their lives fighting Indians, found out later that dadnuff was their real foe.

INTERNATIONAL CALK CURE

Cures Hives, Itch, Eczema, and all Skin Diseases.

Real Philosophy

We haven't any real philosophy in these days.

Yes, we have. I know a man who gives the aid you need so surely, unmarred.

What's philosophical about that?

He says he is glad none of them have been taken from him.

When Asthma Comes do not despair. Turn at once to the help of Dr. J. D. Kellogg's Asthma Remedy. This wonderful remedy will give you the aid you need so surely. Choking, spasms, breathing becomes natural and without effort. Others, thousands of them, have suffered as you suffer but have wisely turned to this famous remedy and ceased to suffer. Get a package this very day.

THE VALUE OF FIRELESS COOKERS

A FIRELESS cooker is invaluable to a housekeeper, especially in hot weather. The cookers are now so perfect and inexpensive the woman who does not own one is decidedly at a disadvantage when labor saving methods are considered. Cooking during oppressive heat in summer is a disagreeable task. Healthful foods requiring long cooking are made practicable for the daily menu, and the weight of the cooked product from a pound of raw material is much increased. The fireless cooker is splendid for the cheaper cuts of meat. Since tough meat should cook for a long time at a low temperature the cooker is a most excellent medium for this purpose. Breads and so called boiled meats seem to have a better flavor when cooked in the cooker than when cooked on the stove. Beef, mutton and lamb-cooked in this way may be served as roast meat, as a stew, as minced meat warmed in liquor and served on toast, as wet, dry and browned, hash, or made into pie, meat turnover, and other ways in which cooked meats are reheated. Five pounds of meat could be served to two in ten different ways, serving half a pound at each meal.

Excellent soup can be made from the leftover carcass of a fowl, from the neck piece of lamb or from any leftover beef bones and scraps of meat. Place in the kettle of the fireless cooker, cover with cold water, place on the stove and bring slowly to a boil, then put in the cooker overnight. In the morning remove the meat and bones and use the liquor or stock, to be reheated and flavored according to the taste of soup desired.

Breakfast cereals are the most abused foods in ordinary cooking. Rarely do they receive the long, slow cooking which their nature demands, because of the early rising this would necessitate. The fireless method delivers the full value of the nutrients with a minimum dependence upon the cook.

Fruit is oftentimes a serious problem on account of expense. The fireless method makes available many dried and evaporated fruits, which can be obtained reasonably at all seasons. Delicious compounds can be made which rival the best preserves in appearance and flavor, in no respect surpassing those usually obtained from the tin can. Each shriveled piece awells to its original size, unbroken, distinct, a color, aromatic liquor and charged with the flavors which characterize the fruit in its prime state.

A Beach Costume

The Big Becoming Hats of the Midsummer Season

MIDSUMMER hats are immense. They are vegetable cart wheels and actually much larger than the wheel of a perambulator. Much of their effectiveness, however, depends upon the angle at which they are pinned upon the hair. It is not always easy to succeed with this angle. There should be laws of latitude and longitude supplied by the milliners, whereby the purchaser of their creations might learn the exact angle which the brim should bear to the line of the eyes. This little attention would put an end to much of the disappointment which arises upon putting a "dear of a hat" upon one's head for the first time at home.

Big, low crowned, drooping brim

PICTURE HAT IN WATTEAU COLORING.

is used for the brim facing, bows, etc. Bows of color in satin and in taffeta velled in black chintilly are effective, as are the facings of color—rose, for example—velled by softly shirred black tulle or chintilly, the outside of the hat being trimmed in a great bow or ruche of the lace.

A stunning big leghorn hat trimmed recently by a clever girl had its brim covered with her grandmother's chintilly black lace parasol top, the old fashioned carriage parasol tops that were not much larger than a 1913 picture hat. The center of the lace cover was cut out sufficiently to fit about the low round crown and spread out over the wide drooping brim. Heading the lace ruffle was a careless twist of natter blue velvet ribbon, topped by a

speaking of natter blue coloring the chic Watteau picture hat to be seen

shot in the shade of blue and apricot pink, combined with white. The crown of pin lucked battiste and lace is mounted on a drooping rim of lace, finished at the edge with a broad facing of natter blue straw. This wreath of small silk roses is in shades

of apricot pink and gray green, the pink predominating, and two of the flat "tomato" roses are caught in the softly knotted streamers of blue and gray shot taffeta ribbon. This hat was designed for a dark haired and blue eyed maid. The natter blue brim facing deepens the blue of the eyes, while the

wreath of tiny pink roses without foliage. The effect was very dainty and girlish, and the cost was a mere trifle. With this hat was worn a charming little frock of natter blue voile over white silk, and the usual French touch contributed by the black velvet sash.

Red hands are often due to other causes than those directly influenced by the weather. Sometimes they are caused by wearing gloves which are a trifle too small and at others by a flow of blood to the hands. When the latter is the case it will be best to exercise the hands by working them backward and forward from the wrist. This will restore the circulation to its normal state and the redness will disappear. When tight gloves are responsible for the redness the remedy naturally lies in discarding them. Some women imagine that a small glove mites the hand appear smaller. This is by no means the case. Loosely fitting gloves are not only better for the hands, but give them a small effect so long as they are not extremely large and are much more comfortable in warm weather.

To remove tan from the hands a cream should be applied at night and gloves about three sizes too large worn for a couple of weeks. To make a cream take two ounces of castile soap, two ounces of olive oil, one ounce of mutton suet and one ounce of alcohol.

Melt the soap after shredding it into small pieces, then melt the suet, clarify it and add to the soap, warm the oil and add this next, and finally the alcohol, beating all together to a cream. Place in a jar and apply to the hands, rubbing the cream in with an upward movement from knuckles to wrist.

of the bedstead with turpentine, while others place camphor or wipe naphtha between the mattresses.

It is easier to clean a worn spring with a stiff, dry brush, but if a wet treatment is preferred wash the spring with a little warm water and soap and remember to stand the spring upright in a current of air, so that it may dry quickly and not rust.

As the weather gets warm and the blankets are discarded make a practice of washing one or two each week until each bed has been cleaned.

The blankets on the guest room bed will probably not need washing, but these should be hung over a line in the sunshine and gently beaten or shaken.

A Useful Reminder

A COARSE scrubbing brush near the kitchen door is the best sort of shoe cleaner for muddy weather.

Put glycerin on the meat grinder. It is a lubricant and does not taste in the food, and it is not harmful.

Mildew will go away from curtains if they are soaked with clean water and rubbed with laundry soap and then coated with talc. Then hang in the sun. Repeat the performance until the stains are gone, although if they are bad, it may take several treatments.

A pinch of borax in the water with which flowers are washed makes them longer. Salt can also be used for the same purpose.

THE NEW FLANGE BRIM WITH POMPADOUR HAT IS GAY AND DASHING.

Inner brim facing of lace throws the wavy dark hair into relief.

Big hats faced with flowers, pompadour silk or velvet with roses clustering under the brim are very smart this summer. One of these models is pictured faced with jolly velvet, with a single handsome plume as the only trimming.

But perhaps the most eccentric large hat of the season is called the admiral. This nautical piece of broad gear is nothing more than a simple shepherdess shape, the fore and aft trimming giving the sailorlike suggestion. The hat is made of jolly taffeta, trimmed with plain taffeta plaiting and the oddly arranged wreath of roses.

The work is done in white mercerized cotton entirely in eyelash stitch for the butterfly, save for the body, which is in satin stitch. The basket for the other square may be outlined or worked solid with the floral spray in eyelash embroidery.

A centerpiece that should have everlasting style is worked in white mercerized cotton on heavy linen of five

so flatteringly, the newest of the mid-season shapes have their brims lifted. The latest model with an unlifted effect is the flange brim. This hat has for a foundation a cap of leghorn which fits the head snugly. Over this is a gathered frill of shadow lace, stiffened with a wire hoop at the edge and lifted flange fashion, to show a cluster of flowers tucked under the loops of lace. This hat accompanies a frock of striped taffeta, with which are worn long embroidered silk gloves and buttoned boots of white buckskin.

In smart millinery each face is carefully studied so that the beauty of the features may be enhanced by the sweep of the brim, and the shapes and colorings of most of the hats of the season are exquisitely lovely.

CATHERINE TALBOT.

Care of the Hands in Summer

DURING the summer months the woman who is anxious to have really pretty hands will find her best chance to beautify them.

Red hands are often due to other causes than those directly influenced by the weather. Sometimes they are caused by wearing gloves which are a trifle too small and at others by a flow of blood to the hands. When the latter is the case it will be best to exercise the hands by working them backward and forward from the wrist. This will restore the circulation to its normal state and the redness will disappear. When tight gloves are responsible for the redness the remedy naturally lies in discarding them. Some women imagine that a small glove mites the hand appear smaller. This is by no means the case. It is easier to clean a worn spring with a stiff, dry brush, but if a wet treatment is preferred wash the spring with a little warm water and soap and remember to stand the spring upright in a current of air, so that it may dry quickly and not rust.

As the weather gets warm and the blankets are discarded make a practice of washing one or two each week until each bed has been cleaned.

The blankets on the guest room bed will probably not need washing, but these should be hung over a line in the sunshine and gently beaten or shaken.

A Useful Reminder

A COARSE scrubbing brush near the kitchen door is the best sort of shoe cleaner for muddy weather.

Put glycerin on the meat grinder. It is a lubricant and does not taste in the food, and it is not harmful.

Mildew will go away from curtains if they are soaked with clean water and rubbed with laundry soap and then coated with talc. Then hang in the sun. Repeat the performance until the stains are gone, although if they are bad, it may take several treatments.

A pinch of borax in the water with which flowers are washed makes them longer. Salt can also be used for the same purpose.

of the bedstead with turpentine, while others place camphor or wipe naphtha between the mattresses.

It is easier to clean a worn spring with a stiff, dry brush, but if a wet treatment is preferred wash the spring with a little warm water and soap and remember to stand the spring upright in a current of air, so that it may dry quickly and not rust.

Happenings in and Around Frank

Neil McCaig, of Macleod, spent Sunday at the Rocky Mountain Sanatorium.

A Mangel, proprietor of the Frank hotel is able to be about again after a brief illness.

Harvey Murphy has been enjoying a visit to the coast and is expected home this week end.

Some sixty miners are writing examination papers at the Rocky Mountain Sanatorium this week.

W. J. McGowan, who went to Vancouver on the first of the month, is expected home on Sunday next.

Miss MacCallum, of Calgary, has been engaged to fill the deficiency in the school staff, and arrived this week.

A meeting of the trustee board of Knox Methodist Church was held at the church on Tuesday night.

R. W. Thompson returned last week from an extended trip through eastern Canada and the States.

R. E. Mercer and wife, of Macleod, were week end visitors at the Sanatorium, returning home Sunday evening.

The man Stewart, of Blairmore, who received injuries at the cement works a few weeks ago, has come out of hospital.

If you know of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprains and rheumatic pains, you will never wish to be without it. For sale by all dealers.

Samuel Shone and Fred Allott have been appointed board of examiners for Mine managers, pit bosses and fire bosses for the Crow's Nest district.

C. Vinet, who had been attending the Stampede at Calgary last week returned to town on Sunday last. Mr. Vinet resigns the management of the Rocky Mountain Sanatorium on Sunday next.

Now, if any medicines have met with Colic, Cholera and Diarrhoea Remedy. The remarkable cures of colic and diarrhoea, which it has effected in almost every neighborhood, have given it a wide reputation. For sale by all dealers.

As there are two bonded warehouses, the Frank Wine & Spirit Co. and Dominion Express Co. in Frank, Mr. Beach has been retained as a preventative officer for the town at the same salary as he was drawing formerly as Collector of Customs.

The Canadian Coal Consolidated Co. have awarded the contract to W. J. Scott, of Pincher Creek, to remove all their cottages off the danger zone, and the work will commence on Monday next. At present most of these cottages are vacant, but as soon as they are moved they will be all occupied.

Running up and down stairs, sweeping and bending over making beds will not make a woman healthy or beautiful. She must get out doors, walk a mile or two every day and take Chamberlain's Tablets to improve her digestion and regulate her bowels. For sale by all dealers.

The coal company have started work on the sinking of a new shaft just west of Bohemian town. The new shaft is estimated to cost in the neighborhood of \$10,000, and should be sufficient information for the doubling Thomas's as to the feeling of the coal company towards the abandonment of the town of Frank. Hope is just as bright in the town today as ever it was, and in fact brighter, for in addition to the sinking of a new shaft there is a movement on foot which will materialize into a mammoth cement plant. It is said that a strong company has the matter in hand and that the big smelter has been acquired, which will be converted into a store room while the main factory will be constructed north of it.

Coleman Notes

C. MacLean, of Lethbridge, was a Coleman visitor on Wednesday.

A. L. Blair, of Frank, paid Coleman a business visit on Tuesday.

Fred Locke is around again, after his accident in the mine a week ago.

J. H. and Mrs. Ross, who took in the Stampede at Calgary, returned home Monday morning.

George Penn and family have left for Blackney, Alberta, where Penn takes charge of the C. P. R. station.

Miss Charlotte Eason has taken a position in the dry goods department of the Coleman Mercantile Company.

The regular monthly meeting of the Board of Trade was held at the council chamber on Monday evening, when some local matters were discussed.

Representatives of the Conservative party from the various towns of The Pass held a consultation in the office of Percy Willmott on Tuesday evening.

Alex. Cameron visited Ceston Monday and Tuesday, returning to town Tuesday evening. Mr. Cameron reports flourishing conditions at that fruit raising centre.

Lorne A Campbell, president of the McGillivray Creek Coal Company, has been spending the past few days here in connection with the Company's business.

The wife of Robert Holmes died on Saturday last of heart failure, at the age of 42 years. Mrs. Holmes leaves a husband and six children to mourn their loss. Funeral took place at the Coleman cemetery on Saturday afternoon and was largely attended. Rev. J. G. Bompas officiating.

George Murr, who for the past year has been clerk and accountant for the Coleman hotel, left on Sunday evening to take a position in the office of the Lethbridge Brewing & Malt Co., Lethbridge. Before leaving, Mr. Murr was tendered an informal banquet by his intimate friends. His many friends wish him every success in his new work.

St. Albans Church folks are advertising a good performance to be given in the Dreamland theatre on Wednesday evening, the 18th. The entertainment will consist of a special series of moving pictures, interspersed with solo and recitations by local talent. The proceeds will go to the men's institute fund, and in view of this commendable object the patronage should be large.

At The Sanatorium

The following registered at the Rocky Mountain Sanatorium during the week: T. D. Brown, Mr. and Mrs. R. H. Munich, Sam. Kutz, G. McLaren and wife, Calgary; Inspector and Mrs. Beisher; S. A. Fraser, Pincher Creek; A. F. McComb, A. B. Tritter, Neil Morrison, A. K. Lavan, H. C. Skinner, Fernie; T. Lambert, John F. Sterling and wife, Edmonton; T. S. Sutherland and wife, Miss H. Roberts, Mr. and Mrs. R. E. Mercer, Neil McCaig, Macleod; H. H. Johnson, Collingwood, B. C.; F. H. Smith, H. F. Lloyd and wife, H. Kehoe, Spokane, Wash; John Taylor, Moyle, B.C.; W. N. Smellie, W. P. Terrier, Toronto; Mrs. C. Frazer, Coleman; G. B. Vandusen, R. W. Thompson, Chicago; E. E. Wilson, Dubuque, Iowa; A. Young, So. Michigan; Francis Aspinall, A. C. Pitcher, Lethbridge; Thomas Milligan, J. A. Gillespie, Vancouver; M. Johnson, Taber; G. A. Jackson, Victoria; James Sinclair, Redfish; W. E. Ceine, Granbrook; C. S. Craddock, Nelson; A. McCulloch, W. Watson, Coleman; Sam. Richards, Corbin; Ed. Willey, Fernie; Ralph Smith, Lacombe.

Happenings in and Around Bellevue

Hugh McDonald and Robert Connolly were Stampede visitors.

W. J. Cole took in the Bailey-Alton fight and the Stampede at Calgary last week.

Jan. Fisher has stopped work in the mine here and will work at Passburg.

John Brooks has removed his residence to the house vacated by George Davey.

Gus Rudd returned on Sunday from Moyle, B. C., where he has been attending school.

Herbert Noble and family have moved back to Fernie after a ten months' sojourn in Bellevue.

George Davey and family went to Fernie B.C. on Friday last to take up their residence there.

Pay day does not come this week in Bellevue as in the other mining camps, but will fall on Sept. 20th.

Mrs. S. Humble was confined to the house for a few days, owing to her having contracted a severe cold.

Mr. Radford and family have recently come in from Nova Scotia and are occupying the house vacated by Mr. Johnson.

Mr. Johnston and family have moved to Calgary and are taking up their residence with Mr. Johnston's brother in the East end.

Watch for announcement of the big concert to be held in the Social hall on the evening of Sept. 23rd. Proceeds in aid of the new institutional church.

The little son of Charlie Barrows, who recently underwent a severe operation for appendicitis, was removed from the hospital to his home on Friday in a much improved condition.

The local mine management have been forced to lay off quite a number of men because of the lack of cars to remove the output of coal. It is thought that having fewer men at work, it will necessitate fewer idle days.

Rev. Mr. Irwin will preach next Sunday night upon the subject "Does God Exist?" It was stated last Sunday evening that if God is not a factor of consciousness his existence cannot be proven by any system of prayer or logic. Mr. Irwin will try to prove that God is a factor in consciousness and can be known as an actual reality. Discussion is invited at the close of the regular service.

The citizens of Bellevue were alarmed the other evening by the shrieks of a dog which ran through the town having been shot in the mouth. It was found out afterward that an effort had been made to put on end to the canine but the charge had failed to do the damage completely and the dog escaped with a severe wound. He was finally dispatched with an axe and duly deposited in mother earth.

We are interested to note the reference in last week's issue of this paper by the Hillcrest correspondent, to the dangerous condition of the bridge between Bellevue and Hillcrest. The importance of having the bridge repaired has been felt by the Bellevue people for some time. We hope that the proper authorities will take this matter and assure the safety of those who carry on the large traffic between the twin camps.

On Friday morning last a strange incident occurred at Hillcrest station while an engine was waiting for a freight train. The engineer, John Schultz, fainted and fell out of the cab of his engine and was discovered by his fireman and C.P.R. agent Perry lying in an unconscious condition. He was revived but fainted away again and was removed to Frank hospital when he was put under the care of Dr. McKay. It is reported that he is not dangerously ill and will be out in a few days.
